

## **Supplementary statement to City and Hackney Health and Wellbeing Board's Pharmaceutical Needs Assessment**

City and Hackney Public Health Intelligence Team

Date Pharmaceutical Needs Assessment published – January 2022

Date Supplementary Statement issued – November 2024

The Regulations state that Supplementary Statements can provide updates to the Pharmaceutical Needs Assessment (PNA) only in relation to changes in the availability of pharmaceutical services. Supplementary Statements cannot provide updates on pharmaceutical need. This can only be achieved through a review of the PNA. The following pharmaceutical services currently contained within the PNA have been identified as needing updating. This updated information supersedes some of the original information within the [Hackney and the City of London PNAs](#) and should be read in conjunction with those documents.

### **Closure to pharmacies:**

Five pharmacies have closed since January 2021 and these were situated across the City of London, and each were located within 0.5 miles of a community pharmacy.

The following pharmacies have permanently closed within the City of London:

- Boots Ltd, 138 Fenchurch Street, London, Greater London, EC3M 6BL
- Boots Ltd, 54 King William Street, London, Greater London, EC4R 9AD
- Boots Ltd, 120 Fleet Street, London, Greater London, EC4A 2BE
- Boots Ltd, 100 New Bridge Street, London, Greater London, EC4V 6JJ
- Boots Ltd, Unit 9, King Edward Court, Paternoster Square, London, Greater London, EC4M 7DX

The City of London has 9 community pharmacies (as of October 2024) for a residential population of around 13,462 (ONS mid-year estimates 2023). The number of community pharmacies per 100,000 population for the City of London is currently 66.9, which has decreased from 137.0 in 2022.

Since January 2021, one pharmacy permanently closed in Hackney:

- 142a Upper Clapton Road, London, E5 9JZ

This closure occurred prior to the publication of the recent PNA. Hackney has 48 community pharmacies for a population of around 263,282 (ONS mid-year estimates 2023) and there are 18.2 community pharmacies per 100,000 population.

The average number of pharmacies per 100,000 population in London is 19.9, ranging from 14.9 in Tower Hamlets to 66.9 in the City of London. The number of community pharmacies per population in the City of London exceeds the London average and the number of community pharmacies per population in Hackney are in line with the average for London.

### **Change of ownership - commencement of trading:**

The following pharmacies has changed ownership:

- Dunsmure Pharmacy, 90 Dunsmure Road, Stoke Newington, London, Greater London N16 5JY has been acquired by Greenlight Operations Ltd. The pharmacy will now trade as Green Light Pharmacy and maintain the previous owners opening hours. Effective date of commencement 6th January 2022.

### **Changes to opening hours:**

A total of 23 pharmacies reduced their opening hours in the City of London (2) and Hackney (21). A total of 9 pharmacies increased their opening hours in the City of London (2) and Hackney (7). Full details of these changes are detailed in Appendix A.

The majority of community pharmacies in the City of London (89%) and Hackney (83%) are open weekday evenings (after 6 pm) and on Saturdays (56% and 71%, respectively). On Sundays, 30% of pharmacies are open in the City of London and 12.5% in Hackney. Proportions are in line with the previous PNA.

### **Conclusions**

Provision of current pharmaceutical services and Locally Commissioned Services (LCS) are well distributed across the City of London and Hackney, serving all of the resident and worker population. The number of pharmacies per 100,000 population for Hackney is similar to other London Boroughs and the City of London continues to have the highest number per resident population. Therefore, it is not anticipated that the changes in availability of pharmaceutical services had a significant impact on the population of the City of London and Hackney. A full PNA is due in 2025 and will provide a thorough assessment of current and future needs.

Information correct as of the 15th October 2024.

Supplementary statement prepared and issued by the City and Hackney Public Health Team.

**Appendix A: List of pharmaceutical service providers in the City of London and Hackney  
with a change in opening hours**

**Pharmacies with reduced hours**
